DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claim 1, drawn to a system for estimating the performance of an integrated circuit in a register transfer level comprising syntax analyzing means for creating a syntax analyzing tree based on a logic description, classified in class 716, subclass 5.
 - II. Claims 2-5, drawn to a system for estimating the performance of an integrated circuit in a register transfer level comprising a floorplan means for arranging a device model inside of the net list of the gate level within a specified region, classified in class 716, subclass 14.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions Group I and Group II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, inventions Group I and Group II have separate means such as the syntax analyzing means for creating the syntax analyzing tree based on the logic description and the floorplan means for arranging the device model inside of the net list of the gate level within the specified region, to be used as part of the integrated circuit design systems other than that as disclosed by Applicant's inventions. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
